

2022-2023
Academic Year

Electrical and Computer Engineering, BS

Wireless Networking and Signal Processing

(students graduating 2024 or later)

ABET accredited
Course offerings subject to change
Major credits: 146 (not including GURs)

NOTES & EXCEPTIONS

Pre-majors apply for the major at the end of spring and/or summer quarters

Students not enrolled in MATH 124 and PHYS 161 fall quarter may not finish in four years

Math 341 may be substituted for MATH 345; CSCI 141 may be substituted for CSCI 140

Students must complete General University Requirements in addition to major courses

* ENGR 101 is optional but recommended

Electrical and Computer Engineering, BS

Wireless Networking and Signal Processing

Admissions

Students must first be accepted by the university. The program accepts major applications at the end of spring and summer quarters. Accepted students start major coursework fall quarter.

Required coursework to apply		Required questionnaire	Admissions statistics
MATH 124	Calculus II	Applications will include a required questionnaire. The questionnaire will ask about the applicant's goals, demonstrated leadership experiences, collaboration and teamwork examples, strategies for studying, and ability to overcome adversity.	The program typically accepts 48 students annually.
MATH 125	Calculus II		
MATH 204	Linear Algebra		
PHYS 161	Physics w/ Calc I		
PHYS 162	Physics w/ Calc II		
CSCI 140 or 141	Programming Fundamentals		
EECE 111	Circuit Analysis I		
EECE 108/109*	Intro to Electrical & Computer Engineering	Applications due	<pre> graph TD A[Typically 50-70 applicants] --> B[average 3.3-3.7 pre-major GPA (not a cut-off)] B --> C[48 accepted] </pre>
* 109 may be waived for transfer student admissions, but 108 must be taken at first opportunity.		Transfer students	
Other courses considered, but not required to apply			
MATH 224	Multivariable Calc and Geometry I	Applications are accepted at the end of every spring quarter and the beginning of fall quarter. Accepted students start major coursework fall quarter. See department website for specific dates.	
MATH 331	Differential Equations		
MATH 341 or 345	Engineering Statistics		
PHYS 163	Physics w/ Calc III		
CHEM 161	General Chemistry I	Transfer students are encouraged to contact the pre-major advisor to discuss equivalencies and transfer timing.	

Higher Level EECE Electives and Technical Electives

Students must complete 20 credits of higher level EECE electives; for the wireless/SP concentration this includes EECE 362, 433, 460, and two additional courses. Students must also complete 10 credits of tech electives. See the EECE advising website for a list of Higher Level EECE and approved tech electives.
