Plan of Study 2020-2021 Academic Year

144-148 Total Credits for Major

- ABET accredited
- All students must initially declare as a pre-major in Electrical and Computer Engineering; students cannot apply for the major unless all pre-major prerequisites have been satisfied with a grade of C- or better. Admission to the program is competitive.
- Course offerings/schedule are subject to change
- Shaded areas below are pre-major courses

Fall Quarter

Winter Quarter

Spring Quarter

Year 1 Pre-major	Math 124 Calc I (5) FWS	MATH 125 Calc II (5) FWS	MATH 204 Elem Linear Alg (4) FWS
	PHYS 161 Phys w/ Calc I (5) FW	PHYS 162 Phys w/ Calc II (5) WS	PHYS 163 Phys w/ Calc III (5) FS
	CSCI 140 or 141 Program Fund (4) FWS	EECE 108 (1) & 109 (1) Intro to Electrical & Computer Eng. W	EECE 111 Circuit Analysis I (4) S
		CHEM 161 Gen Chemistry (5) FWS	GUR

EECE Pre-majors apply to the major at the end of Spring quarter. Courses above in BOLD are the minimum requirements to apply.

Year 2 Major	EECE210 Circuit Analysis II (4) F	EECE 220 Electronics Design (4) W	EECE 310 Continuous Systems (4) S
	EECE233 Digital Electronics (4) F	EECE244 Embedded Microcontrollers (4) W	ECON206 Microeconomics (4) (SSC) FWS
	MATH 224 Mult Calc & Geo (5) FWS	MATH 331 Differential Equations (4) FWS	MATH 345 Engineering Statistics (4) FWS
	ENRG 380 Energy & Environment(3) FW	GUR	GUR

Year 3 Major	EECE372 Electromechanical Devices (4) F	EECE 360 Communications Systems (4) W	EECE 361 Signal Propagation (4) S
	EECE 344 Embedded Microcont II (4) F	EECE 374 Energy Processing (4) W	EECE 378 Smart & Renewable Power (4) S
	EECE 320 Electronics II (4) F	EECE 444 Embedded Systems (4) W	ENRG 386 Electricity Economics (4) FS
	GUR	ENRG 320 Energy Science I (3) W	GUR

Year 4 Major	EECE 471 Energy Project Proposal (2) F	EECE 472 Energy Project Res & Dev (4) W	EECE 473 Project Implementation (4) S
	ENG 302 Technical Writing (WP) (5) FWS	Technical Elective	Technical Elective
	EECE 480 Control Systems (4) F	GUR	GUR
	GUR	GUR	

NOTES:

1. EECE courses are offered once per year and have a strong prerequisite structure. Not following the sequence may delay graduation.
2. Students not enrolled in MATH 125 and PHYS 162 by *Winter of Year 1* will not be able to complete the degree in four years.
3. EECE 109 is waived for transfer students. EECE 108 must be taken during the first winter quarter at WWU.
4. MATH 341 may be substituted for MATH 345, the recommended course.
5. CSCI 141 may be substituted for CSCI 140, the recommended course.

Admissions—

Program Admissions: Admission to the Electrical and Computer Engineering major is a two-phase process. When students initially declare, they are designated as pre-majors. Students must complete the courses listed below in order to apply to the major. Admission to full major status is determined by academic performance and other factors including an application questionnaire about the applicant's experience, motivation, and goals. Admission to the major is competitive. Neither completion of the prerequisites nor attainment of any specific GPA guarantees admission.

Major Prerequisite courses: MATH 124, MATH 125, MATH 204, PHYS 161, PHYS 162, CSCI 140, EECE 108/109, and EECE 111. Students must obtain at least a C- and an overall GPA of 2.0 or higher in these courses to be considered. Advanced Placement (AP) scores are converted to GPA as follows: 5 = A; 4 = B; 3 = C. Decisions are based on the cumulative GPA in the prerequisite courses, and other required major courses, overall GPA, and questionnaire responses.

Spring Quarter: Applications are due **on the Friday before finals week**. Only complete, on-time applications will be considered. Applicants will be notified by the end of the week following finals week. *Students who are accepted must register for Fall quarter EECE courses before the end of Phase I registration. Students who do not register by the end of Phase I registration may lose their major status.*

Fall Quarter: Applications are also accepted at the beginning of Fall quarter on a **space available** basis. Check the department website for application due date. Accepted students will be notified by the start of Phase III registration.

Transfer Students: Transfer students who will be transferring into Fall quarter, Year 2, will be designated as a pre-major and will need to follow the standard application process above except for EECE 108, which must be taken at the first opportunity on-campus, and EECE 109 which is waived for transfer students. Transfer students who have previous coursework that can be transferred to EECE core courses and will be entering the program after Fall quarter, Year 2, may apply at any time. Acceptance will be based on space availability and academic performance. All transfer students who are interested in pursuing the EECE program should meet with the department pre-major advisor early to discuss their options.

Approved Technical Electives (6 credits total required): Other courses may be accepted; see program advisor.
